

NEW ADDITIONS

Year after year Global Squad enhances the experience for players, parents, & coaches. **We have two exciting additions for 2018!!!**

WOMEN'S PROGRAM

The same recruiting & training program that has helped transform so many men's players will be open for the first time to women basketball players.

These players will play in some of the best summer tournaments & compete against elite U.S. women's teams.

Our women's coaches have high level NCAA coaching & playing experience.

This addition to Global Squad is long overdue, but **it's finally here & it's going to be epic!!!**

COACHES CLINICS

Global Squad will host a coaches clinic twice a week. These presentations will be broadcast on YouTube & Facebook for parents & coaches to watch.

Coaches who want to attend in person are also welcome.

Global Squad coaches will present on topics ranging from transition offense to team building techniques.

Global Squad players will improve their understanding of the game & enhance their basketball IQ.
